The Commonwealth of Massachusetts

State College at North Adams

North Adams 01247

To the Class of 1965:

There is much to be crowded into four years of preparing to become a teacher. There is so much to learn, so many established areas to master, and increasing new and unfamiliar avenues to explore. You have now completed the four years. You have worked hard and the College has tried to give you the necessary subject matter and skills to make you good teachers. The rest is up to you. The future is a challenge and a dedication. May God assist you.

Eugene P. Freeland
President

Hello —

I'm Moses "The Mohawk," and I've been incorporated to add life and amusement to the ensuing pages. Perhaps you'd like to think of me as a little more than this, however. I'd like to consider myself a kind of symbol - a symbol of timelessness, since that's what I became when I joined the yearbook staff. You're not timeless, but your contributions to humanity will be. Allow me to congratulate you already you've come a long way. And now let me ask you - what have you contributed?

Forever yours,
Moses "The Mohawk"

The Coachmen: Thom Niles, Jackie Jiacalon

COACHMEN TO PERFORM WINTER CARNIVAL

Pedagogic Panorama is the theme of Winter Carnival, 1965, and it is time to get more facts about it. Winter Carnival will take place one week after the end of exams, Jan. 29th, 30th & 31st. It comes at an ideal time — all the worry of first semester and finals is over and the worry of second semester hasn't begun to hit home yet. Everyone is in the mood for some relaxation and fun and here it is...Winter Carnival.

As before, every class will compete to create the best snow sculpture in the contest being held starting at the end of finals. Also eligible to compete are the dorm and any club or organization on campus.

Events Listed

Friday's events will include, besides finishing touches on snow sculptures, a toboggan run (to be built in back of the school). Following this activity there will be hot cocoa and dancing to records in the lounge.

Saturday is a BIG day. In the morning snow sculptures will be judged and the cafe will be open

sac Hall and in the afternoon the Winter Olympics will be held in the Gym. Last, but by no means least, comes the dance Saturday night at which the prizes for the snow sculptures will be awarded and, of course, the Queen of Winter Carnival crowned.

Sunday's Events: To top off the weekend, the Coachmen from Nasson College, in Maine will give a concert Sunday afternoon. Through necessity, an admission of 99¢ will be charged for this one event.

Remember, keep the dates of January 29th, 30th, & 31st free and clear for . . . PEDAGOGIC PANORAMA!!!

Winter Carnival

Lesson

I. Understandings are generalizing and interpreting the meaning are in the form of generalizations, comprehensive statements. (True sentences.)

Ex. Everyday life is abundant to use fractional, decimal

A. Facts and Knowledges:

Facts are events, acts, take place or have taken

Knowledges are an accumulation, reorganization of facts

B. Skills and Abilities:

Skills are facilities in performances.

Ex. in sounding letters
in recognizing
in pronouncing

Abilities are generalization, set of related skills.

Ex. to read
to write
to evaluate

C. Appreciations and Attitudes:

Appreciations are likings, They are satisfying emotions

Attitudes are likings, are satisfying emotions

Attitudes are relatively certain directions and patterns. They may be knowledges, or emotions

AT STATE CONFERENCE

BRANDEIS DEAN SPEAKS
AT COLLEGE CONFERENCE

DECEMBER 4, 1964

New Student Association Constitution Proposed

Controversial Issue Will Be Submitted To Student Body Monday

HAPPY JOURNEY Fram left to right- Barbara Wassel, Miss Margaret Lanaue, Thomas Scharrett, Mr. Frederick Bressette, (Director).

Three One Act Plays . . . A Review

by Susan Marble

Under the general supervision of Frederick K. Bressette, an evening of short one-act plays was presented Wednesday, March 31st in the college auditorium at 8 p.m.

Thornton Wilder's the "Happy Journey", directed by Mr. Bressette, pictured both the imaginary and the real world in a delightful blending of the two. Conventional scenery was discarded to emphasize the portrayal of the realistic world. Wilder has developed his play around the family life of the American scene. Depicting this typical American family was Miss Margaret Lanaue, as Ma Kirby; Mr. Andrew Flagg, as Elmer; Barbara Wassel, as Caroline; Thomas Scharrett, as Arthur; Gary Krueger, as the gas station attendant, and Barbara Sheppard as Beulah.

Edward Albee's "The Sandbox", directed by David Simon, was also a picture of the real and the imaginary world, as well as holding a basic theme of family relationships. Because scenery was limited, active imagination was demanded from those in the audience. Albee, though farcical on the surface, presents a well-based criticism concerning these familial relationships. The cast included, David Meaney, as the young man; Jane King, as Mommy;

Thomas Carty, as Daddy; Deborah Clark, as Grandma; and Priscilla Ferreira, as the musician.

After Albee's somewhat tragic portrayal of life, Tennessee Williams' "The Case of the Crushed Petunias" returns us to the idea that life is worth living...it is wonderful and light. The play is a fantasy, but holds truths found in Prim and proper Massachusetts. The cast consisted of Gloria Morandi as Dorothy Simple; Richard Watson as the officer; David Hyatt as the young man; and Susan Marble, as Mrs. Dull. This play was directed by Louise Gallivan.

FINANCES AND THE FUTURE

Mr. Hyman Patashnick spoke March 30 on the necessity for people planning for the future, to invest in mutual stocks. The speaker discussed the necessity for small buyers to purchase mutual stocks rather than single issues, as the best ultimate profits rest in the mutuals. He also discouraged investing money solely in insurance policies. A question and answer session followed at which time areas touched on in the twenty minute talk were discussed more fully.

The new Constitution offers a long needed change in student government for N.A.S.C. The two chief changes—more representation and student initiated government—will add a community feeling to our campus. Instead of one representative, every class will have at least four Senators to contact and represent their interests. This new representation will extend the understanding of, interest in and democratic attitude toward a completely new "experiment in self government" here at College.

These Senators will replace the Presidents of our present Council in only one capacity—that of general college government. In the past, this body functioned poorly chiefly because of the extreme demand on the relatively few people who held these positions who were thereby required to organize and, usually carry out all the activities for the entire student body. Knowledge of activities and government now will be well dispersed. More will be called and most will be chosen.

These Presidents shall continue to exist in their present capacity except that they will be freer to coordinate and assess just how functionally their particular group can best serve an enlarging college community. They shall serve in an advisory capacity to the Senate as an important Activities Committee. If they fulfill these important functions of their office, they will be doing a great service, not only to their constituency, but also for the entire Student Association.

It is the Senators therefore, who will be the general integrating body left free to govern in the best interests of all. The new government consists of a legislative body, the Senate and its various committees for college life, four self-contained and more active class units, and a judiciary of and for student responsibility. This is not dividing the power of one body, it is adding strength and efficiency through number into three balanced and all encompassing branches of one government.

continued on page 7

David W. Hyatt

Hyatt Supports Constitution

The years we spend in college are those, which hopefully, will be fondly remembered all through our lives. A college community, like any other society must be organized to produce order from chaos. Since we all believe in democracy and the democratic way of life, it is necessary that our collegiate society be organized in the most democratic manner possible, in order to secure maximum benefit for the maximum number. This is the function of student government.

The present system includes one freshman, two sophomores, three juniors and seventeen seniors (all of whom are practice teaching for half of their senior year). With this arrangement, how is it possible to organize an effective student government which can reach all members of the student body? Clearly, it cannot.

On the basis of my experience, I believe that three chief factors are required if the organization of the student association is to be truly effective. They are a strong president, who has power to coordinate all phases of college life into an effective whole; the president down through the specific

STATE COLLEGE AT NORTH ADAMS

MAY 10, 1965

Hall Elected New President of Student Assn.

RECORD TURNOUT FOR INTERESTING ELECTION

Apathy at State College has suffered a severe set back. Eighty percent of the student body voted for the officers of the Student Senate under the new constitution.

The enthusiasm of the candidates, apparent by the many posters throughout the school, was matched by the tremendous mandate of the student body.

JOHN HALL - President

JOHN GUERCIO - Vice-President

John Guercio is the new Vice-President of the Student Association. John, who has only recently come to us plans to keep his mind on the pulse of the general college life and activities at NASC as the person next in charge during the President's absences. He will try to be a sounding board for the suggestions, needs, and desires of the student body. He will try to be a sounding board for the suggestions, needs, and desires of the student body.

While in office, he will become acquainted with nearly every student at North Adams State in "both a representative and non-representative capacity."

From left to right, Dr. John Gillespie, President Freel.

Photo by Oldfield

DIRECTOR OF STATE COLLEGES SPEAKS AT HONORS ASSEMBLY

During the Annual Honors Assembly held Tuesday, April 27, in the State College Auditorium, an audience of 250 faculty and students heard Dr. John Gillespie, Director of the State Colleges in Massachusetts, speak on "Creativity, and Its Importance in Teachers and Their Students". His remarks and conclusions were very well received by the enthusiastic audience.

Dr. Gillespie aptly addressed the group who attended the Honors Assembly in the college auditorium on April 27, by urging the students to cultivate creativity and individuality within themselves and within those around them.

He expressed the view that young teachers are moving into an age of explosions. Ten new teachers should be trained each hour to contend with the tremendous population explosion of this time.

Dr. Gillespie aptly addressed the group who attended the Honors Assembly in the college auditorium on April 27, by urging the students to cultivate creativity and individuality within themselves and within those around them.

of knowledge. This expanse is perhaps most indicative of the burdens placed upon new teachers. All this knowledge we gain is soon to be found obsolete and often incorrect. Knowledge is our business, and we must keep abreast of it. The teacher must maintain his creativity, be a servant of the creativity existing within his students, and provide the proper atmosphere for the stimulation of this creativity.

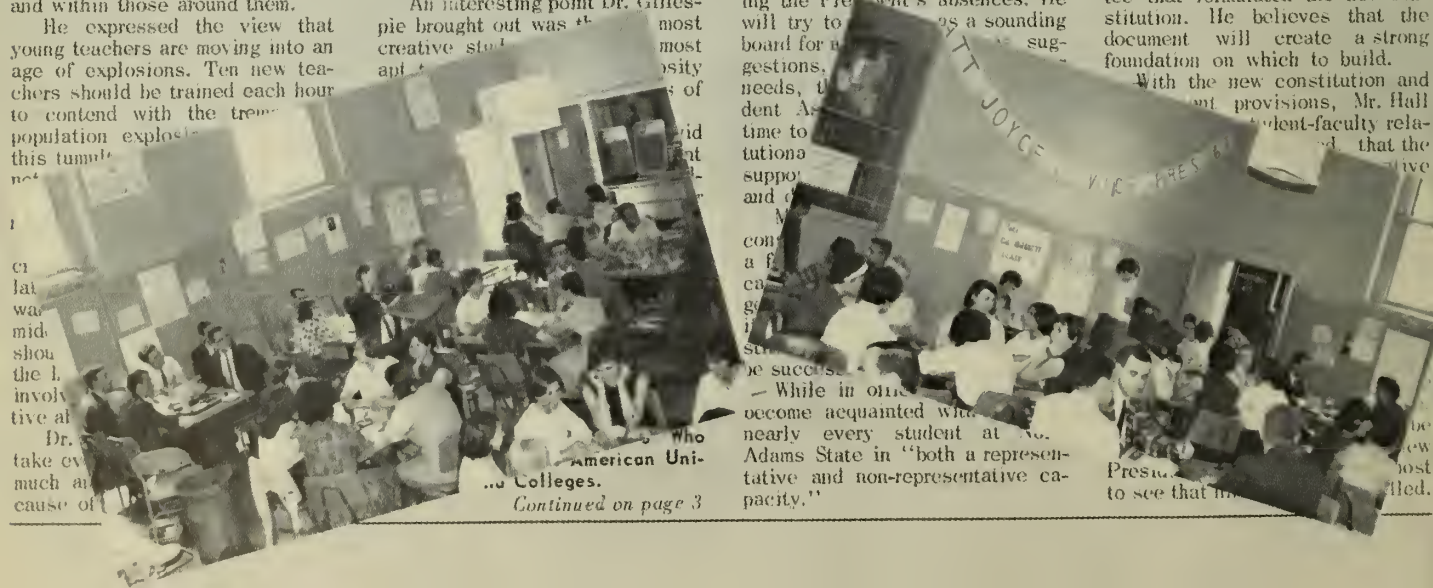

A creative person must be flexible and adaptable. To be creative students, teachers, and adults, we must read, and exercise more diversified thinking.

An interesting point Dr. Gillespie brought out was that the most creative students are the most adaptable.

Dr. Gillespie brought out was that the most creative students are the most adaptable.

Dr. Gillespie brought out was that the most creative students are the most adaptable.

Continued on page 3

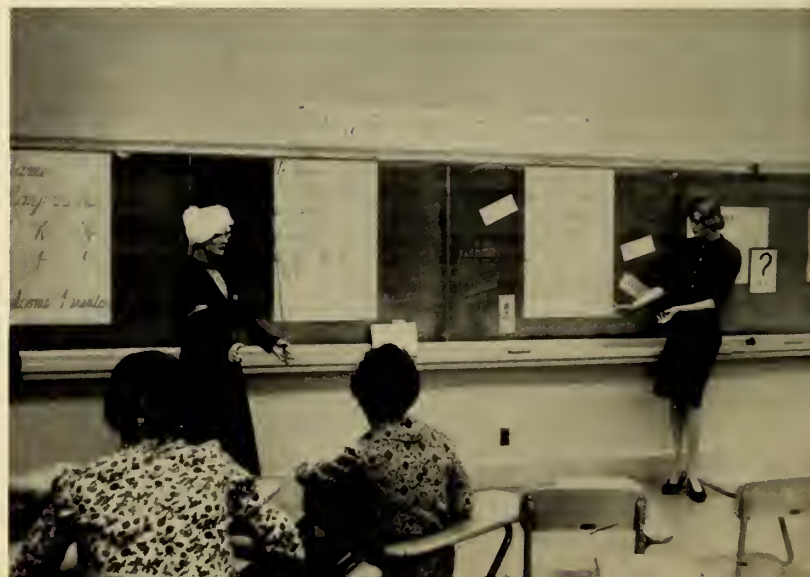

made a personal inspection of all dorm rooms last Friday, and upon finding that many rooms had items tacked or pasted to the walls and window shades, issued an order that all girls in the rooms involved be campused from April 23rd through April 28th. As you know, there is a notice on each dorm bulletin board specifying clearly that tacking or pasting anything on the walls is forbidden.

These 8 Graduates Types Who Finish What They Start

official yesterday, "they all managed to wrap it up together."

One of the eight, Patricia A. Girgenti, won the college's two top academic awards and a summa cum laude diploma.

The others are Timothy J. Bergendahl, Harold Gitelson, James A. Meaney, James F. Rhodes, Kathleen A. Scully, Joanne Troia and Ann E. Cain.

The eight tots entering kindergarten together in 1948 had no idea of when or where they would earn college degrees.

But yesterday the eight, now college seniors 21 or 22 years old, marched down the same aisle and mounted the same stage to pick up diplomas at North Adams State College.

At Marks School

In September of 1948 they enrolled in a kindergarten class at Mark Hopkins School here, beginning the studies that led to the bachelor's degrees in education they received yesterday.

They were split up several times over the past 16 years, some of them switching grammar schools and others choosing different high schools.

"But," mused a State College

UNDER SECRETARY OF HEALTH EDUCATION AND WELFARE TO GIVE COMMENCEMENT ADDRESS

Ivan A. Nestingen, under secretary of Health, Education and Welfare, will be the speaker at the 66th annual graduation at North Adams State College exercises scheduled for 3 p.m. Sunday, June 13, Dr. Eugene L. Freil, president, said in announcing the plans for commencement week for the class of 1965.

The Baccalaureate has been scheduled for 3 p.m. Sunday, June 6 in Hoosac Hall Auditorium. The Rev. Lafayette H. Sprague, Jr., Rector of St. John's Episcopal Church of North Adams will be the speaker at the Baccalaureate, Dr. Freil said. This event is open to the public.

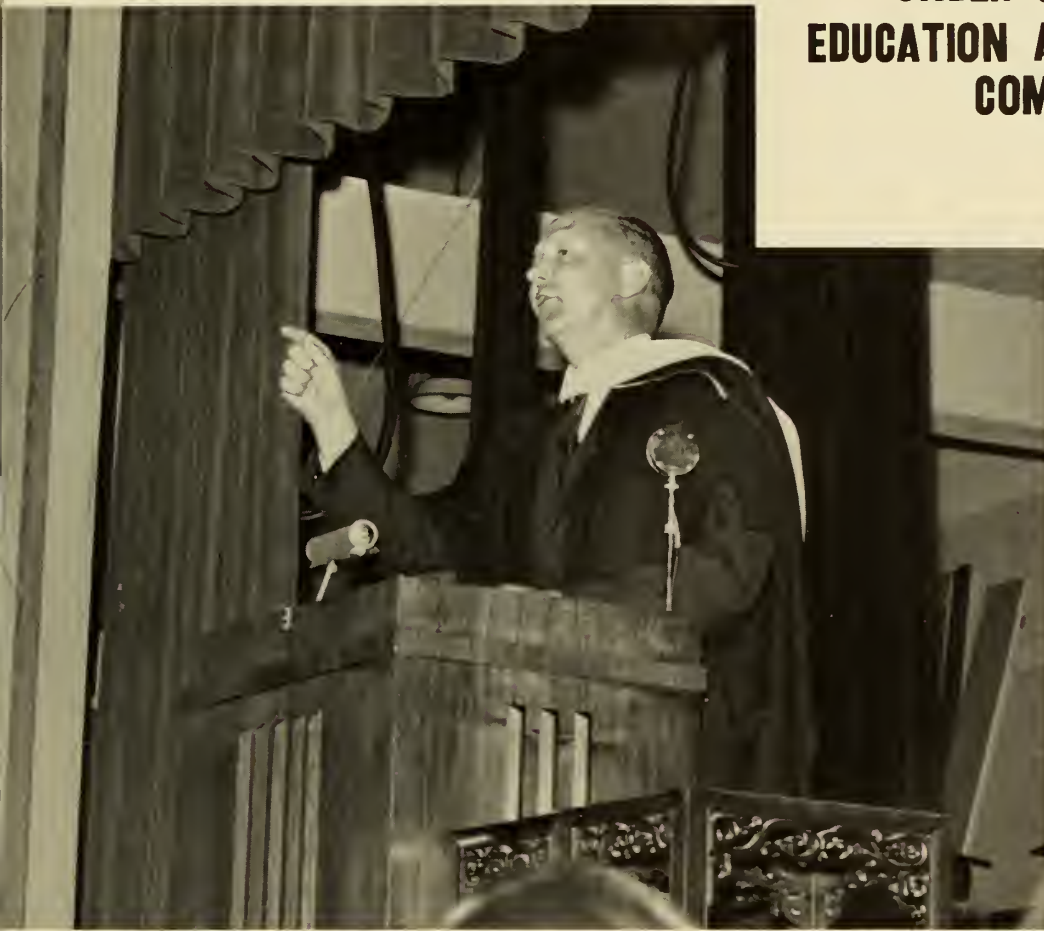

The commencement exercises will be held in the Taconic Hall Gardens, weather permitting, and will be open to the public with seats reserved by ticket. In the event of inclement weather, this ceremony will be held in Hoosac Hall Auditorium where admission will be by ticket only.

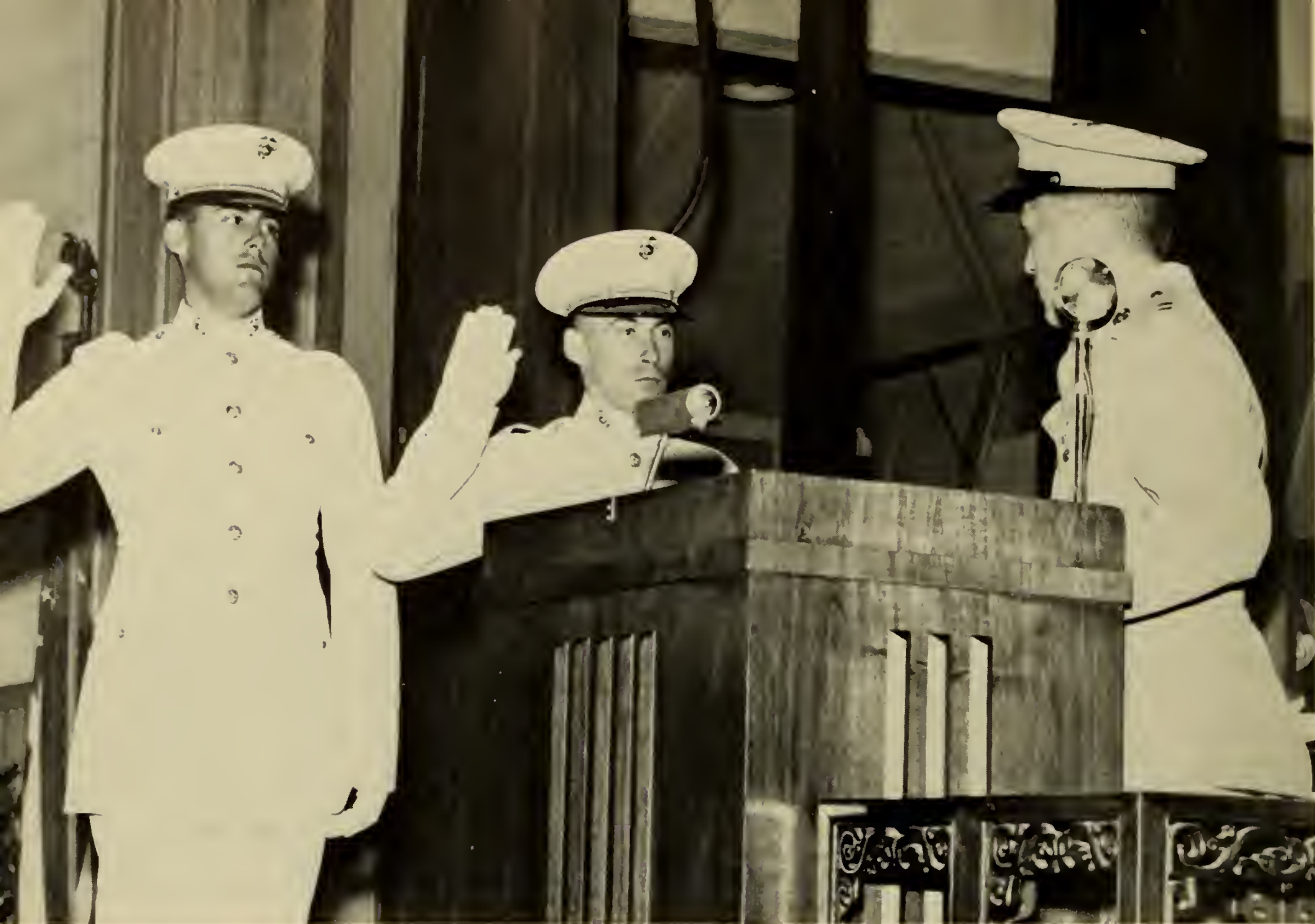

Secy. Nestingen, a lawyer by profession, is a native of the State of Wisconsin where he practiced law in the law firm of Arthur, Dewa, Nestingen, & Tomlinson in Madison, Wisconsin until he was elected the Mayor of Madison in April 1956.

Mr. Nestingen has had extensive governmental experience which began in 1951 when he became a member of the Madison Common Council. He was later elected a member of the Wisconsin Assembly before he was elected the mayor of his home city. He was reelected mayor of Madison twice before his third term expired in 1961.

The U. S. Health, Education, and Welfare official has been active in the Democratic party in Wisconsin since 1949. He has been chairman of the Kennedy for president club of Wisconsin and chairman of the Citizens for Kennedy-Johnson of Wisconsin group.

Mr. Nestingen served in World War II overseas in the south Pacific. He received two degrees from the University of Wisconsin
